## OBJECTIVE

A dedicated and proficient coder with a strong academic background, seeking opportunities to apply programming expertise in a dynamic environment. Committed to continuous learning and collaborative teamwork, aiming to contribute effectively to innovative projects.

## EDUCATION

- Army Public School, Dera Ghazi Khan (2012-2020)  
Primary Education and Matriculation with Computer Science  
**Score: 92%**
- Punjab College, Dera Ghazi Khan (2020-2022)  
**Score: 87%**
- COMSATS University Islamabad, Lahore Campus (2023-2027)  
Software Engineering  
**Current CGPA after 4 Semesters : 3.82/4.0.**

## SKILLS/EXPERTISE

- Coding Languages:**
  - Proficient in MERN stack, C++, C, and Java.
  - Efficient and clean code writing skills.
- Problem Solving:**
  - Strong analytical skills for effective problem resolution.
  - Timely delivery of quality solutions.
- MERN Stack:**
  - Proficient in MongoDB, Express.js, React.js, and Node.js.
  - Hands-on experience in full-stack development, building dynamic, scalable web applications with a focus on the MERN stack.
- Academic Achievements:**
  - Consistently high academic performance.
  - High percentage and 4 GPA in first semester

## MY PROJECTS

- Catstagram:** Developed a social media web app for cats, featuring user profiles, posts, likes, and comments. Implemented the MERN stack for full-stack development.
- Usmaniagarden.com:** Built a real estate web app for a client, which included a file management admin panel, utilizing the MERN stack for front-end and back-end development.
- Unilever Website:** Remade the Unilever website, adding product listings, an admin panel, and functionality for managing a shopping cart and order processing.
- Rent a Car Management System:** Developed a system to handle car rental processes, including booking, payments, and vehicle management, user role management, selling/buying cars, renting/returning cars.
- Restaurant Management System:** Worked on a project involving order management, inventory tracking, and user roles.
